MIRACLE OILS FOR DOGS

ABOUT SUPPLEMENTS THAT MAKE A DIFFERENCE

While a high quality complete natural diet provides all-round nutrition the need for additional supplements is necessary when support for various health concerns and general environmental issues prevent your dog from being happy and content.

Making a difference naturally

A unique system – 100% pure fish oils and natural blends of salmon and rapeseed oils together with organically grown herbs form the basis of PRINCE® MIRACLE OILS.

Oil combinations are cold pressed at the lowest possible temperature to produce clean, golden oils that are long lasting. This process helps to maintain the nutritional values of the Omega 3, 6 and 9, anti-oxidants and vitamin E.

Herbs that are organically grown in an ideal climate are carefully harvested in order not to destroy the beneficial components. This process entails drying the whole leaf for up to six days in low temperatures of up to a maximum of 45°Celsius before preparing for the process of blending with the oils.

Combinations of freeze dried green lipid muscle from New Zealand that provides the highest levels of glucosamine, honey for slow release energy and soya lecithin for the skin and mind bring extra benefits to the ingredients.

MIRACLE OILS FOR DOGS

WHY SUPPLEMENTS MAKE A DIFFERENCE

When trying to manage skin problems, mobility, moulting or even fleas and ticks there is no need to upset the balance of feeding a healthy diet by having to use toxic supplements that may invade the general health and the lifestyle of your dog.

Although there will always be some dogs that need the supervision of veterinary care, the opportunity to use a 100% natural product that has been tried and tested offers an alternative option of support.

PRINCE® Miracle oils for dogs combines pure salmon and rapeseed oils with organic herbs that are known to:

- Contain anti-bacterial properties
- Soothe reactions to allergies and itching from bites or stings
- Act as an anti-inflammatory
- Provide calming effects to the body and mind
- Heal wounds and ease pain
- Aid mobility to joints and muscles
- Support immune system, stamina and well-being
- Ease constant moulting
- Manage coat conditions during seasonal changes
- Ensure a glossy coat, bright eyes and fresh breath
